

Reggio Emilia Approach to Early Childhood Education October 24, 2009

Please join us for an introduction to the Reggio Emilia Approach to Early Childhood Education to learn about:

- *the history and some stories of Reggio Emilia
- *the ways of integrating the philosophy into a children's center
- *the importance of observation and documentation of the ordinary moments in children's lives.

Dr. Laurie Kocher

Laurie has studied the early childhood programmes of Reggio Emilia and has travelled from Italy to Australia for her studies. She loves to share the approach of Reggio Emilia with members of the community. Laurie has taught at UBC and most recently Douglas College. She has been involved in the development of BC's Early Learning Framework and training.

Laurie is a regular contributor to *Canadian Children* and has written a number of chapters for edited volumes.

She's a voracious reader, a consummate coffee drinker, a lover of jazz, a collector of inkwells, fountain pens, and sea glass.
